Government.

Thinks Curtin has done a good job under the circumstances. People queued at him, but his responsibilities are enormous.

Not worse off since 1941, but possibly better off. War has only affected them through little things like rationing. Still buying house - "wouldn't let that go".

Away on holiday from Feb. 23rd

On 2 visits there was a lad of about 16 who answered door + appeared to be one of the family.
On final visit wife sent message through 1 grandchild - then through this lad that she was too busy. Daughter + family had just turned up for the day, as usual.

150 Shift workers; try afternoon.

Dear Sir or Madam,

The University of Melbourne would be glad to have your help and co-operation in an important survey which is being made of the housing conditions and occupations etc. of families living within the metropolitan area.

Every thirtieth house in the area is being visited and it happens that your house is one of these. One of our visitors will be calling on you in the next few days and by answering her questions you will not only be helping us, but doing a service to the community in which you live. All the information that you give will be kept secret, but it will enable us to compile statistical tables showing the conditions under which the people of Melbourne live and work.

This is the first occasion on which a complete survey has been made of living conditions in any Australian city, and we believe that our results will be particularly valuable in planning the new social order that it is hoped to build after the War. Our investigation has the interest and support of government departments, municipal authorities, and Trades Hall and many well-known citizens, but it depends for its success on the information you are willing to give us.

We earnestly hope you will give our visitor all the help you can.

Yours faithfully,

Wilfred Prest

## SAVINGS ART

"All have certificates, elder son runs his group at work - Head and wife intend to give theirs to son - Son(16) has stamps (19) - Head in certificate group at work - pays 4/- per week. Intends to give certificates to son. Approves of voluntary system".(15)

"Son buys 1/- every week at work".(31)

"Head has no certificates but wife pays 2/- per week towards them. Head and daughter each hole one certificates wife intends to join St. Group. No certificates".(409)

"Son invests regularly in certificates at work - Head presumes that since daughter went to work she will start doing likewise".(408)

"Daughter (47) pays 1/- per week for herself and 1/- per week for Head at work. Daughter (50) has none but her husband is buying them".(406)

"Son has 7/- worth of stamps and continuing to buy at school out of pocket money - daughter is going to join St. Group and save out of own money".(405)

"Head in favour of voluntary system. He gives 5/- per week at work towards certificates. Now has 35 and daughter has 12 certificates"(402)

"Prefers voluntary system. Head and daughter-in-law have no certs. Head thinks son (18) might give something at work but not at all Would not join St. Group if asked - bitter about the war".(396)

"Daughter has certificates, paying weekly amounts - Head pays weekly into savings at work".(398)

"Head in War Savings Group at work - pays weekly amount".(391)

"All hold certificates, some bought installments, others bought cash down.

(Unsatisfactory) 46

## WAR LOAN Footscray

"Suspicious of putting money into the war as they knew someone who put all her money into the last war and has never got it back - though she still gets interest on it - They distrust the Govt. and therefore distrust its loans".(45)

"Supports Labour Party and would do anything for the boys at the front, but wouldn't put anything into war loans".(63)

"Married daughter would not put a penny into the war loan. Thinks that Govt. wants people to invest so as to keep them down and prevent them from having ready cash in their hands".(70)

"Wife puts all her savings into loans so does one of the daughters; she buys a £10 bond when she can - has several of these - prefers them to certificates as she gets her interest from the start, instead of having to wait for 7 years".(22)

"Head doesn't buy bonds or certificates - thinks taxation heavy enough, therefore, wouldn't join the Street Savings Group".(235)

"Very much in favour of War Saving, even if there is a certain amount of wasting of money. Her sons are away and they need ammunition, etc. Every little helps".(342)

"Wife bought bonds out of own Savings (£150) - is going to invest in present loan and head is talking about it too. Would do anything to help men fight - Wife disapproves of method of raising money - It is degrading to beg for it - Should be compulsory Saving".(414)

"A good way of getting money - The big man has had to part up".(139)

"Strongly believes in buying War Bonds - Gather the principle amount of their savings are in the loan - She thinks it is just the same as having money in the Bank".(345)

| | Reasons for Change | Not allowed to work more than 56 hrs. now. Pension increased as health gets worse each year; spine trouble | | | | | | |

Expenditure of Cost of Living: Noticed a very big increase in household expenses. Food has increased more than clothes; have to buy the best for head, because of his poor health. — Fruit & vegs. take 20/- to 25/- weekly; meat averages 2/6 a day; groceries take 22/- a week. — 2 pts. milk a day.

Rationing:

Clothes: Head has managed well; had a good stock to begin with. — Wife has also managed well, apart from underclothing which she thinks is very much over-rationed; will probably have to use husband's coupons to replace underclothing.

Furniture, etc.: Have bought no heavy furniture since war; only curtains (£5.).

Savings Certificates, Stamps and Clubs: Wife buy Certificates, 4/- weekly out of housekeeping money. She also buys 6d Stamps now & then. —

War Loan:

Hold one War Bond. — Very keen on supporting this war. Wish they could do more.

Savings Bank:

Household expenses take almost all head's salary, but wife is able to bank a little in State Savings account.

Subscriptions and Premiums: Both have Life Insurance Policies (J.o.G. and Colonial Mutual); takes 3/- a week which covers both policies. Wife pays it out of housekeeping. — House is Cash insured, £1·12·6 annually.

Now, bank what is left over from household expenses. Previously money was kept in shed, as much as £40 but wife got a fright when rats bit into bag in which money was kept & has never kept large sums at home since.

Attitude to Post-War:

Do not expect a depression, but rather an industrial boom, especially thro' introduction of new industries. Americans will probably return & settle here in considerable numbers, helping country's development.

Miscellaneous

Lodge — (Foresters) — £1 paid quarterly. Head doesn't get full benefits because Pension has increased.

Dentist — recent expenses have been £20, local dentist.

| | Reasons for Change | | | | | | | |

Expenditure of Cost of Living: - Found terrible increase esp. in clothing - shoes the worst. Couldn't manage without the overtime. - Meat the biggest food item (12/-), fruit & vegs (17/6), groceries not risen as much. - On the whole find clothes much worse than food.

Rationing: Clothes: Eldest girl got 30 extra coupons. Had fairly good stock to begin with, so have managed pretty well. - Food: sufficient tea & sugar; had in good stock of sugar before rationing.

Furniture, etc.:

Have not bought any furniture since war; but curtains (20/-, wife made them up), carpet for hall & kitchen linoleum (£10.10.0).

Savings Certificates, Stamps and Clubs: Elder daughter is buying Certificates at Stotts; younger two did buy them at school. - Wife is in Street Group, 1/- a week.

War Loan:

Not able to subscribe.

Savings Bank:

Before husband earned overtime money wife used to manage all finance; now he "has the responsibility" & is able to save a little in Bank.

Subscriptions and Premiums: - Only children are insured. Wife pays 1/6 a week for their Life Policies (Colonial Mutual). - Head is in Benefit Fund on Railways, 1/6 a week, sick pay & funeral expenses.

Cash

Don't keep much in house: prefer Bank.

Attitude to Post-War: Wife expects another depression. Wants to make the most of money now, in case things get bad. Keen on educational reform & "vocational guidance", getting right people in right positions.

Miscellaneous

Daughter's Fees - £7.7.0 a term (paid for out of Child Endowment)

Lodge - A.N.A - medical expenses only - 12/- quarterly, paid by wife. - Have had medical expenses with wife; got the operation (£13 - £15 altogether).

Expenditure of - Cost of Living: Wicked. Doesn't know how people with families manage.
Meat worst item, but everything v. dear.
Takes much more to feed a person now.

Rationing: Tea & sugar enough - can make do but can't be extravagant.
Clothes: had a stock, can manage.
Thinks rationing a racket - hard on babies as they can't get certain foods. Thinks some shortages unnecessary. ~~Meat~~

Furniture, etc.:
Nothing bought.

Savings Certificates, Stamps and Clubs: None - wife couldn't get any out of house-keeping money

War Loan: Thinks money wasted - munition girls overpaid & don't work. Thinks taxes v. high - people are working for nothing. Opposed to War Loan.

Savings Bank: No account. Prefers to have money in house as more convenient.

Subscriptions and Premiums: Not insured - prefers to save ~~on~~ own.

Lodge.
Sickfund.
Union.

Cash.
Wife saves in house - can use the money as she wants it.

Attitude to Post-War: Doesn't know what to think - you can't tell. But thinks there may be a depression as there was one before, ~~But~~ and also so much money to pay back - where will it come from? Australia may develop new industries, but on the other hand we may lose the war. Married women won't want to return to home work.

Miscellaneous

Head handles money over £4. Wife doesn't know what he does with it. Head reported as being suspicious of survey - would be angry if knew wife was giving all this information.

War: wife thinks wars are dreadful - the ordinary people always suffer, whether they are Germans, Japs, or British, & they all have mothers & families. Wife would never urge anyone to go and fight.
Thinks Australia the best country in the world for living - compares it with England. We notice shortages, but even now we are living very well - look at butter.
Merchant Navy doesn't get enough recognition.
